IT would seem that our remarks on the incidents which took place during the recent action in the Supreme Court in the case of Anderson *v.* Saul and Belilios, have given deep umbrage to Mr. POLLARD, the counsel for the defendant. A letter from that gentleman was received yesterday at this office addressed, in a very unusual manner, to the Editor of this Journal by name, "A. B. Esq., Editor of the *Daily Press*. This letter dealt with our remarks in a manner which was even more extraordinary than the address. That it was not a "privileged communication," intended for the Editor personally was manifest from the fact that it was addressed to him in his official capacity, and was in the handwriting of a third person, and that it was not an ordinary communication to the paper was also manifest from the fact that it was addressed to the Editor by name. Under these circumstances, the Editor in his public capacity begs to lay it before his readers as an illustration of the annoyances to which, in the conscientious discharge of his public duties, the conductor of a newspaper is sometimes subject. In his private capacity the Editor has forwarded the original letter to the committee of the Hongkong Club, of which Mr. POLLARD is a member, in the full confidence that no body of gentlemen will consider the communication as one which ought to have been addressed by one gentleman to another, and that in their hands it will be dealt with in an appropriate manner. Preferring that the public opinion on this matter may be formed, without even seeming to be influenced by any arguments of ours, we lay the letter without any further comment, before our readers.

——— Esq.

EDITOR OF THE *Daily Press*.

SIR.—In your leading article in this day's issue of the *Daily Press* there is a passage commencing (in the 30th line of the second column) with the words "Thus during the trial just over" &c. This passage contains a charge against me of unprofessional conduct based upon your assertion of something having occurred during the cross examination of Mr. Shaw by the Attorney General, and your accusation of course depends upon the assertion you make being true. I beg to tell you most distinctly that your assertion is utterly and entirely false, and that no such occurrence as that stated by you ever took place, and your accusation is as unjustifiable and groundless as your statement is false. I have to point out to you that you are in the position of having made this charge either with the knowledge that it was false or of having made it malicious without knowing that it was true. Either position in you which any person having the slightest regard to the requirements of his position as an Editor of a newspaper or as a gentleman would care to fill, and I am reluctant to believe that your will allow yourself to remain under such an imputation. The instructions and advice (against everybody but Mr. Anderson) which appear in the preceding portion of the article, you have, I observe, taken care to, nullify the effect of by publishing a very full report of the cross, but as the passage I allude to contains a direct though false and most unjustifiable charge of un-professional conduct, it compels me to bring to your notice the position you have placed yourself in.

I have the honor to be, Sir, Your obedient Servant.

(Signed) EDWARD, H. POLLARD.

SHANGHAI.

[FROM OUR OWN CORRESPONDENT.]

SHANGHAI, *5th August*, 1866.

The Shanghai summer, that very purgatory on earth, is dragging its weary length along. As if in revenge for the long period it held off during the earlier part of what is generally the hot season, the summer has at last come upon us with re-doubled force. For the last fortnight there has scarcely been a day as which the thermometer has not toubled 90° in the shade, while in some cases it has been as high as 96° or 100. Fortunately up to the present time there has not been any epidemic such as cholera or fever in the place, but the heat is now beginning to tell, sickness of different kinds is showing itself, and there have been several deaths from sun stroke and apoplexy. As may be readily conceived, people are disposed to trouble themselves very little more than necessary about public matters; but nevertheless there have been one or two well attended meetings with regard to Volunteering affairs in which even in this changeable place, we have been more fortunate than the Hongkong people as we have managed to keep our movement going, despite some unquestionable difficulties; one of these is of a rather peculiar nature and is worth noticing in detail. Your readers may recollect that when the Volunteer movement was started here, Mr. WEBB who was then Commandant, advanced various sums for the purchase of arms and ammunition; but he did not make any claim against the corps for the amount until last year; being over two years since the time when the movement was started. On account of this delay the members of the corps who at the call in was made, resisted it, and took up the ground that it was in reality who had benefitted by the Volunteers and it could not with any reason be urged that existing Volunteers, many of whom had joined the corps without the slightest knowledge that such an incubus was hanging over it, should be called upon to pay. An appeal was made to the public; but the "model settlement" having become very much straightened in means; and there being no longer any particular want for a volunteer force, no subscribers were found, and it appears probable that the amount will never be forwarded to Mr. WEBB. A great deal has been said about the want of honor on the part of the Volunteer force in repudiating the debt; but the truth is they have no other alternative; and there is another side to question upon which very little stress has been laid, namely that when the Volunteer movement was got up in 1863, it was signally in accordance with the interests of the speculators in land, whose property by reason of the security it would afford in the Settlement, it was calculated very considerably to enhance in value. Hence they were then willing enough to invest considerable sums in Volunteers, who appeared likely to prove quite beneficial to property as Municipal police, sanitary arrangements, or rebels outside forcing the country people to take refuge in the Settlement,—and the plain fact of the matter undoubtedly is that these property holders are the parties by whom the standing balance ought to be defrayed. Unfortunately however, the old land speculators may be divided into two classes; those who realized their property and returned home with fortunes, and those who stayed in Shanghai, and are now very nearly bankrupt. Hence the persons, who in all justice ought to pay the sum are unable to do so; but the Volunteers scarcely see that this is a reason why they should be called upon for the money; and intend writing to Mr. WEBB, to suggest some satisfactory settlement of the matter. As meeting after meeting the question is brought forward whether the Main Guard and the Rifle Butts which were part of the things purchased should not be made over to Mr. WEBB and rent paid for them. Finding there will be no difficulty about the whole affair, and am very much inclined to think that some of Mr. WEBB's friends who are constantly rolling up this matter are more enthusiastic upon it than he himself. With the exception of this little difficulty the corps seems flourishing and there is little fear of the movement dying out so long as there are two such popular men as Sir. Edmund Hornby and Mr. Markham at the head of it.

There has been recently a meeting with respect to Grant's Mongolian telegraph it, which the original subscribers came to the decision to hand the concern over to Mr. Grant on condition of his paying back the original amount of the subscriptions namely Tls. 9,000 in the space of three years. This line of action is considered as of a somewhat unwising description and the unusual liberality of the Shareholders has naturally attracted notice. I believe, however, there is little doubt that the line will be carried on and it is probable that the price for sending messages will be reduced.

A new institution has come into existence here in the form of a volunteer Fire Brigade which has been got up chiefly by the Americans. Fire Engines are a great institution in the States and appear likely to become a permanent one here. Practice is weekly held on the bund; where thirty or forty Chinese coolies man each of two Engines, dressed in to the scarlet shirt uniform and presenting a gay and animated appearance. They work away with much enthusiasm when anything like competition between the rival companies takes place and they enter into the idea of the thing with great *esprit de corps*. A very amusing letter has been returned from the Shanghai club with reference to the "Recreation Fund." This sum of money was the balance of proceeds resulting from the sale of the old cricket ground in Shanghai, after the purchase of a new piece of land for the same purpose; and it was decided by the Shareholders that this residue which amounted to no less that Tls. 33,000 should be devoted to purposes of public recreation. The trustee, however lent the money some two or three years ago to the Shanghai club; but at a meeting in May last the Shareholders of the Fund determined to purchase the club and devote it to sundry public objects such as building a Theatre and accordingly application was made on the 1st of this month for an instalment of Tls. 10,000; but the club quietly wrote back and said it is useless to apply to them as they cannot pay; so that unless some more steps be taken the public will have to go to law with Messrs Thomsen in order that an insolvent club may be kept going. The recreation Fund committee have, however, published the correspondence and seem fully determined to follow the matter up.

COMMERCIAL business during the past fortnight has been active. The Imports and Exports of the deliveries of *Grey Shirtings* have been over 350,000 pieces and prices have been fully maintained both for them and also for *T-Cloths* and *White Shirtings*. In *Block Tea* a fair business has been done settlements and re-shipments amounting to 35,500 chests, at about a decline of half a tael on last month's rates. In *Green Tea* there has been great activity and prices have been firm; settlements and re-shipments amounting to 11,200 half-chest. In *Silk* there was little doing prior to the arrival of the French mail but since that date large transactions have taken place and settlements for the fortnight are estimated at 1,600 bales; and an advance of Tls. 10 to Tls. 20 on previous quotations has been established. In *Opium* both Malwa and Patna there has been great excitement consequent upon short arrivals. Malwa advanced to Tls. 665 for old, and Tls. 640 for new, but within the last day or two has declined to Tls. 640 for old, and Tls. 620 new. In Patna rates were during the early part of the fortnight Tls. 460 to Tls. 465, but they have since declined to Tls. 440 and close nominally at Tls. 440 to Tls. 445. FREIGHTS remain unaltered this week; say £3. 15s. Od. to £3. 0s. Od. per ton, for Tea to London. EXCHANGE has declined steadily and closes with a downward tendency at 5s. 11¼d. for Bank paper 6 months' sight, on London, and 27 per cent discount Bank Bills on demand in Hongkong.

Accusation of another Prisoner in the Cæsar and Carl piracy case.

In the evidence against the man yesterday arrested as being connected with the Cæsar piracy case. It appears that the identification in court of "Ny-a-yee" which was mentioned yesterday was a case of mistaken identity and that the man is a respectable member of society and a householder well known to Inspector Nelson and other officers in courts. He was brought up again to-day but Mr. Mitchell remanded him until to-morrow.

It is doubtless a case of mistaken identity and although we do not like to see offenders get off clear, we certainly do not approve of innocent men being charged, and in this case the witness ought to be thoroughly questioned as to his means of recognising the prisoner.

Tue-a-see a respectable shopkeeper was now examined.

PYHONG has been in my service for the last fourteen months and his never absented himself during that period.

Yung-a-ping, stated that he knew the prisoner well and that he was assistant in a shop.

On this evidence prisoner was discharged.

Among late arrivals on board the *Cæsar* says that when in Court yesterday he recognized prisoner from among the crowd of spectators as one of the pirates who attacked the *Cæsar* on the 20th June last. Since then he finds that he is mistaken and prisoner is not the man he thought. I point to him out to Inspector Halpay, who arrested him. Witness cannot swear to the identity of prisoner. He may be mistaken. He thought there was a mark on the face which prisoner does not wear. After mature consideration I am sure that prisoner is not the man.

He was accordingly dismissed.

NEWS FROM THE NORTH.

Fortnightly Summary.

SHANGHAE.

During the fortnight which has just elapsed, we have not any news of a purely Chinese nature to chronicle. Neither from the North nor from the interior has any intelligence of a reliable nature been received and it is to be presumed that the state of the struggle between the Imperialists and the Insurgents remains much as before. The uncertain nature that has been indicated by successive reports up to the present time.

A meeting of the Shareholders in Grant's Mongolian Telegraph was held on the 3rd inst., when, as the Subscribers were not willing to take any further risk upon themselves, it was decided to hand the concern over to Mr. Grant upon the condition of his re-paying the subscriptions of Tls. 6,000 by three yearly instalments of Tls. 2,000 each. Mr. Grant expressed his confidence in being able to carry on the line satisfactorily.

A set of new regulations with respect to the registration of mortgages and Bills of Sale and also with regard to the nature of proceedings in reference to suing firms have been promulgated by Mr. Wade. Mortgages and Bills of Sale must be registered at the Consulate of the district in which the property is situated within fourteen days of the execution of the deed; and with respect to suing co-partners it will in future be sufficient in the indictment to specify one of the items in lieu of all as heretofore.

The Imperial Customs have issued returns of the Import and Export Trade at the various open ports up to June 30th and those for the month ending July 31st it is expected will be ready about the middle of this month; after which date there will be regular monthly reports published. This will be a great boon to the Mercantile Community who have hitherto been very defectively supplied with statistical information.

A meeting of the Shanghai Rowing Club took place on the 27th July, when it was decided that the committee be authorised to proceed with the erection of the new Boat House on the site proposed by them, partly on Xu Chong's grounds, accepting the condition made by Yu-Chong that the House be removeable on his giving 6 months' notice. It appeared that the sum of Tls. 1,000, or Tls. 1,700, had been already collected and the cost of a new Boat House was about Tls. 2,000.

The Committee appointed in May last to take some steps with respect to the investment of the Recreation Fund have applied to the Shanghai Club to whom the money had been lent on interest by the trustee, for repayment of Tls. 10,000 which in had been resolved to apply for at the previous meeting of the Recreation Fund Shareholders. The Shanghai Club have however returned an answer to the effect that the utmost they can repay is the interest and that it is useless to apply to them for the capital.

A meeting which was suggested by Mr. Seward United States Consul General for suing the Municipal Council, having for its basis the plan of making that body amenable to the Consulate of the Plaintiff in any given case, has been opposed by the Council with the exception of Mr. A. A. Hayes. The members who do not approve of the measure have addressed a letter to Mr. Seward recording their dissent; and suggesting that a joint Court should be formed to consist of the senior Consul at Shanghai together with three other Consular Assessors.

The recently established Volunteer Fire-brigades got up chiefly by the American inhabitants of Shanghai have had several trials of their energies. At the last one where the endeavour was made to test the working power of the Engines, the hose was found perfectly rotten. This however can be replaced at 1st per length and the Brigade will then be in a position to afford useful service in the event of a fire breaking out; and they will supply a want long felt in the Settlement.—*Consular Record*

CORRESPONDENCE BETWEEN THE MUNICIPAL COUNCIL AND THE TREATY CONSULS.

COUNCIL HOUSE,
Shanghai, 25th July 1866.

SIR,—I have the honor to forward herewith, for the consideration of the Board of Foreign Consuls, a Memorandum setting forth the views of the Municipal Council in respect of the matter of their being sued.

W. KNEWICH,
Chairman.

G. F. SEWARD, Esq. *Senior Consul.*

The Memorandum embodies the views of all the members of the Council with the exception of myself. I prefer the plan proposed by Mr. Seward at the meeting of Consuls.

A. A. HAYES, Jr.

MEMORANDUM.

The members of the Municipal Council have carefully considered the proposed Regulation drawn up by the Board of Consuls providing for the suing of the Municipal Council, and they regret that they cannot quite approve of it. The members of Consul recognise the difficulties which beset a question involving so many national interests, and understand how the plan suggested would meet some of them, but it appears to the Council that, in the general interests of the foreign settlement, it would be well to have one Court, so as to avoid decisions on almost identical questions being given at variance one with the other. The Council would suggest the creation of a Court of Consuls for the hearing of causes, the Senior Consul to be President, and to sit with three Consuls as Assessors, and from the decision of this Court an appeal should exist to the Ministers of the Treaty powers at Peking. The Council consider there would be no waiving of any right by the respective Governments adopting such a plan, inasmuch as the plaintiff at present has to appear in the Court of the Defendant, and seeing that the Council's of no partiality and is simply a cosmopolitan body, its members are of opinion that it might be cited most justly before such a tribunal.

The Council do not wish to do more than intimate to the Consuls the plan which appears to them the best calculated to promote uniformity of decisions, and do justice to all, leaving to the respective Governments, the details of the scheme and their necessary elaboration.

I suppose, A. J. HOW,
" E. EVESON,
" EB DUNCANSON,
" WM. PARKES,
" J. C. COUTTS,

I am compelled to assent, A. A. HAYES, Jr.

HANKOW.

The water is still rising in Hankow, and is reported to be doing serious injury. A large foreign hong has given way, and a whole square fallen down, killing some thirty Chinese in its descent. This was caused, we hear, by the water sapping the foundation. We are informed that there is not at present a dry place in the settlement excepting a small patch of ground at the back of Messrs. Russell & Co's Hong.

A fire broke out in Hankow on the night of the 31st ultimo, in the Foreign Settlement, and destroyed between forty and fifty Chinese buildings. It was extinguished in about two hours.—*Recorder.*

Tientsin.

We learn from this port that a rising has taken place among the Pelas in Siberia, which is causing considerable anxiety to the Russian authorities. The aim of the insurgents appears to be to cross the Mongolian frontier and the Chinese have been requested to aid, by patrols, in frustrating their attempt. As the date of our latest advices, the insurgents were in the neighborhood of Pesokhtion lake Baikal, and numbered about 8,000. The authorities had sent out their available troops, but had failed to check their march on the town and feared their junction with another body of their countrymen in an adjoining district.

Siberia appears to be gradually attracting more attention as a means of communication with Europe. A line of telegraph has recently been established across it, the arrangements of which are being gradually perfected, so as to ensure greater accuracy and speed in the transmission of messages; and now, a passenger caravan is announced to set out from Tientsin on the 10th August. If a party can be collected. Public announcement of the proj ct has been too long delayed to enable any one from Shanghai to join it this year. But there can be no doubt that, in future season, many persons intending to return to Europe will be glad to exchange the heat of the Red Sea for the cool breezes of Mongolia, if they can avid the troublesome arrangements incidental to a military journey.—*N. China Herald.*

Chefoo.

We learn that the Chinese government have declined all responsibility for the recent outrage on the French missionarium the Coron, and have expressed their intention to remain neutral if steps are taken to obtain redress, and enforce the punishment of those concerned. The French Admiral has accordingly been instructed to concert measures for an expedition to bring the King and his advisers to reason. The opportunity to exact a commercial treaty will of course be availed of, and we trust the three powers which have hitherto marched side by side in promoting foreign intercourse with China, will again act in concert in the necessary negotiations for obtaining a settlement in the Coron. In giving us this information, our correspondent adds interesting details which will no doubt be found in the *North-China Herald* of the 20th ultimo, regarding this hitherto unknown country. Especially it is reported to be rich in mineral wealth, though the mines are not worked, and a town built on a hill of silver, is spoken of. This report at least exemplifies the high estimation with which the unknown is always regarded, and recalls the days when *the discovery* of the El Dorado was the highest aim of ambition. We may, however, be well content if a search for the silver mountain in Corea, result in the discovery of a little of the wealth that the search for the El Dorado brought to light in South America.

Ricardo, states prisoners are stewards on board our vessel, Yesterday I missed a silver watch and gold chain, from my cabin I had left the watch there an half past seven in the morning, and missed in the evening. I had prisoners arrested on suspicion as no one else could have had access to the room. There was a person who came about eleven yesterday morning to visit the first prisoner.

They both denied all knowledge of the affair but the magistrate considered that the circumstances were so suspicious that he remanded the case till Thursday next.

THE NEW ATLANTIC CABLE.—It has been already stated that the new cable was completed, and that the *Great Eastern* will sail from Sheerness on the 30th inst. She will reach Valentia about the second week of July, and the shore end of the cable having been connected with the main line, the operation of laying will be commenced. The ship will first run the cable from the Irish coast to Trinity Bay, Newfoundland, and, assuming this to be successfully done, and telegraphic communication established, she will then steam back to the middle of the Atlantic, and attempt to pick up the cable lost in July last. The 1,200 miles of cable now lying on the bed of the Atlantic are to be connected with the 1,600 miles left on board; and, if all goes well, the ship is to resume her course to Trinity Bay, and so complete a double line between the two Continents. The new cable differs from the old in only two particulars. The conductor, it will be remembered is composed of seven copper wires six round one each wire separately gutta-percha'd in Chatterton's compound, and the whole surrounded by layers of gutta percha, so as to form a "core" half an inch thick; this, again, is further protected by seven solid iron wires, each covered with five strands of Manilla yarn, the wires being laid spirally round the core. In the old cable the yarn was tarred; in now it is left white to decrease weight and facilitate the discovery of faults in substance, and the iron wires have been galvanized. This year 2,730 miles of cable will be shipped, to complete both lines, the length put on board last year being 2,300 miles.—(*Pall Mall Gazette*)

STREET ROW.

P. C. 151 charged three men with fighting and creating a disturbance in Square street the night before last. Taking into consideration the time they had been detained, the magistrate discharged them. The constable had been fined by Captain Quin for not appearing at court yesterday and was now reprimanded by the magistrate.

A STREET-WISE CHARACTER.

Lang-a-kee who described himself as agriculturer unemployed was charged with being in possession of a lot gambling tickets.

P. C. 167 said that he met him in Caine's Road about eight o'clock this morning with the papers now produced in his hand. Prisoner could not give a very satisfactory account of himself, and was sent to gaol for one week as a vagabond.

CHARGE AGAINST A POLICE CONSTABLE.

P. C. No 185, was charged with assaulting one Tse a cook a shopkeeper.

He stated, last night I was closing my house at the 9 o'clock, and defendant who was drunk came past and ran after my sister-in-law into the shop. He also broke some crockery and I got hold of him. He took off his belt and gave me a cut on the head and I went to the station and told the sergeant, who came back to the house with me and arrested him.

Prisoner stated that while walking along Nathan road last night, he was struck by a stone thrown by one of a crowd of persons who were sitting outside a door. I went to ascertain who threw the stone and prisoner took up a chair and struck me. I was perfectly sober at the time.

Wong-a-chuk, a shop keeper, said he lives opposite to the place cutor and that loss night about 9, he was standing outside his shop, and he saw the prisoner pass with a staff in his hand. Prisoner then went and surrendered to the Chinese authorities, who have satisfied the U. S. Consul of their ability to detain him in safe custody, and their readiness to punish. Our information does not clearly point out whether the American authorities acted independently, or in concert with the Chinese. In the former case, we can hardly approve the president, though the capture of the Shenandoah is not a gang of scoundrels on the high family appear to be, is satisfactory under any circumstances.

TSINGTCHOW.

A disturbance has recently occurred between the populace and the American missionaries at this city, which savours strongly of official or some other influence. The headwind front of their disagreement is to have been a desire to rent more houses than they are now occupying, and on this light foundation arose a dispute which led to the breaking of the tombstones in the cemetery and, of course, to a demand by the Americans for reparation. The ground of objection to the renting a few tenements more or less, does not clearly appear; and the fact itself contrasts strangely with the liberty enjoyed by the Roman Catholic missionaries, to erect cathedrals and convents in every part of the empire. It seems strange that the people should of their own accord oppose so violently an apparently unimportant step, after having allowed the missionaries to live quietly in the neighborhood for five years; and it will be interesting to learn what explanation is given of the circumstances.
